BUCKLIN BREEZES.
Sam Schrock of Pratt was a business caller at Bucklin, Tuesday.
H. P. McJannet and Chas. Robinson, are in the western part of the state this week on business.
Grover Smith of Greensburg has accepted a position as salesman with Swayne & Swayne at Bucklin.
The ground is getting pretty dry in this immediate vicinity, but they have been having good rains all around us and the corn is reported to be looking fine.
Mrs. Cartwright, wife of Rev. Cartwright of Dalhart, Texas, was a visitor at the home of her brother, Wm. Eckel, in Bucklin, Tuesday and Wednesday of this week.

Wheat threshing is in full blast here now and the wheat is turning out much better than we expected and is of a fine quality. There are numerous wheat buyers here and they all seem to be getting about all of the wheat that they can handle. The farmers are not getting as much for their wheat as they think they ought to get, yet we who have to buy the product of the wheat for various purposes, think that we have to pay plenty for it.
There has been an outfit of railroad surveyors snooping around on the prairie in this vicinity. They are supposed to be surveying a line for a contemplated railroad from Medicine Lodge to Dodge City. The line that they run crossed the line of the Rock Island somewhere between Bucklin and Mulloville, then in a northwesterly direction to a point on the Arkansas river a short distance east of the old Ryanville townsite and then we don't know where—into the river perhaps.
On last Wednesday evening July 18th, 1906, Mather Gum died very suddenly. The death occurred at the home of A. S. Drake, on the Drake ranch south of Bucklin, where the deceased was employed as housekeeper. Mrs. Gum was about 65 years of age. She had not been very well for some weeks but on Wednesday evening she ate her supper as usual and remarked while at the table that she was feeling better. She got up from the table and started to go to her room. Just as she opened the door to her room she dropped to the floor. She never spoke again and was dead in a very short time. Her daughter Mrs. Lightner took the body of her mother to Winlock, Kansas for burial.

Believing as we do, that all men and women too, are born with some inalienable rights, such as life, liberty and the pursuit of happiness and the privilege of asking questions, and further believing that it is the bounden duty of all candidates for state offices and for seats in the legislature to answer truthfully all questions that may be propounded to them, touching all things that in any way affect the dear people, exercising one of those inalienable rights, we ask all candidates or would-be candidates for state offices or the legislature the following questions:

Robbing Yourself
That is just what you are doing when you fail to get regular and sufficient sleep. Your body requires this unconscious period for repair work; without it your nerve energy becomes exhausted, and you are tired, worn-out, nervous, excitable; have headache, neuralgia, indigestion, poor appetite, or other ailments caused by a lack of nerve force. Make it your business to sleep. If you are restless, take Dr. Miles' Nervine; it soothes and strengthens the nerves, and brings sweet, refreshing, life-giving sleep, and gives the organs power to work naturally. Try it to-day.
"I had a severe spell of fever, which left me in a very weak condition and very nervous. I had severe spells of headache and neuralgia, and could sleep but very little. Every effort that was made to recover my strength was of no avail until I began taking Dr. Miles' Restorative Nervine. After I commenced to take the Nervine my sleep was profound and restful, and the pains in my head, as well as the neuralgia pains, left me to a certain extent and I grew gradually better."
MR. E. H. GILBERTSON,
311 Boylston Ave., Belvidere, Ill.
Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

WORMS
All children complain frequently of headaches, backaches, and "stomach troubles," and that they "don't feel good."
This condition is a common one and the trouble is almost invariably due to pin worms.
Children haven't the strength to combat their ill and indispositions without the aid of some reliable medicine.
Dr. Caldwell's Syrup Pepsin
(Laxative)
is an unfailing, harmless and absolute cure for worms, stomach and bowel troubles, and can be used as freely for either baby or the bigger child, as for full grown folks.
If your child seems indisposed, feverish, fretful, peevish, and all out of sorts, these are symptoms of worms. One dose of DR. CALDWELL'S SYRUP PEPSIN as directed, the dejected condition will soon give way to health and vigor.
DR. CALDWELL'S SYRUP PEPSIN can be obtained in both dollar and half-dollar sizes from all druggists.
Your money will be refunded if it does not benefit you.
Your postal card request will bring by return mail our new booklet, "DR. CALDWELL'S BOOK OF WONDERS" and free sample to those who have never tried this wonderful remedy. Write today.

None: Do you believe in passing a law to compel the weather bureau to furnish rain at such times and in such places and quantities as needed; such need to be determined by a primary election, said election to be called by the hardest knocker in the township and conducted as other elections, at the expense of the dear people? Do you believe in wiping out all taxes except on railroads? Do you believe in regulating everybody's business by law except your own? Will you devote your lives, your fortunes and if necessary, sacrifice all of your wife's relations to bring about these great reforms? If you will, then you are the man for me without regard to race, color or previous or present mental condition. To the end that the dear people commonly called the masses, the down-trodden, the horny handed, etc., may live happy ever after.

A Tragical Finish.
A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth Melver, of Vancoboro, Me., permitted a little cold to go unnoticed until a tragical finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold; but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure at Rath & Balubridge drug store. 50c and \$1. Trial bottle free.

Review of Weather.
For week ending Wednesday, July 25 1906, as furnished by T. J. Connelley of the local Weather Bureau.
The rainfall of last week, 1.11 inch, gives a total precipitation since March 1st, of 12.95 inches and, with a normal, or average, covering the same period during thirty-two years of a 11.40 inches, we have an excess of 1.55 inch.
The temperature of the past week was four degrees above the normal of the past thirty-two years; but since March 1st we note a deficiency of 840 degrees or an average daily departure of 2.4 degrees.
The sunshine has been normal.
Only 83 Years Old
"I am only 83 years old and don't expect even when I get to be real old to feel that way as long as I can get Electric Bitters," says Mrs. E. H. Brunson, of Dublin, Ga. Surely there's nothing else keeps the old as young and makes the weak as strong as this grand tonic medicine. Dyspepsia, torpid liver, inflamed kidneys or chronic constipation are unknown after taking Electric Bitters a reasonable time. Guaranteed by Rath & Balubridge, druggists. Price 50c.

MADE ONE LAST ATTEMPT.
Venerable Frenchman's Efforts Were Finally Crowned with Success.
A young northern woman once went out to visit the famous old chapel and cemetery of St. Roch, near New Orleans. The eccentric old Frenchman in charge was delighted, says Everybody's Magazine, to show her about, and when she came to one of the "stations" where hung a painting of the Crucifixion, wishing to make sure of a firm foundation for her appreciation of the subject, he inquired:
"Madame is an artist?"
"No," modestly replied "madame," "only a student."
The old man was visibly disappointed, but taking new courage, he tried again:
"Madame has traveled much. Perhaps to Paris."
"No," replied the lady, with proper regret, "I have never been to Paris."
Increased disappointment, almost reaching the point of disapproval, but followed by another brave attempt at establishing mutual interests and understanding:
"Madame is a good Catholic?"
"No," sadly replied the unfortunate woman, a trifle uncomfortable, although amused.
"Well," in desperation, "this painting is by a great artist—a French artist who lives in Paris. It represents the Christ who long ago was crucified upon a cross. You have heard of Him?"
CHAMPION PIE EATERS.
New Yorkers Consume Immense Quantities of Pastry and Bread.
One hundred thousand pies are eaten every day in New York. Roughly speaking, that means 36,500,000 pies a year. More than twice as many apple pies as any other kind are eaten, says the World.
Great as is the consumption of pie, it is exceeded by that of bread; 125,000 loaves is the lowest estimate placed on the number baked daily in New York. Bakers who have tried to estimate the amount say there are hundreds of small bakers, each baking from 50 to 100 loaves daily, who are not included in this estimate. There are more than 700 bakers in Manhattan alone and nearly as many more in the other boroughs.
While by far the greatest amount of bread eaten in New York is the plain white wheat bread, many other kinds are eaten extensively, rye, whole wheat and graham bread being the principal.

City-Bred Children.
A London scientist says that life in a metropolis makes young children sharp but not clever; that it often destroys their chance of ever being clever, for it hastens the development of the brain unnaturally; it makes them superficial, alert, but not observant; excitable, but without one spark of enthusiasm; they are apt to grow blasé, fickle, discontented; they see more things than the country-bred child, but not such interesting things; and they do not properly see anything, for they have neither the time nor capacity to get at the root of all the bewildering objects that crowd themselves into their little lives.
Oath in Isle of Man.
The judicial oath in the Isle of Man is so quaint as to deserve printing. It runs thus: "By this book and the holy contents thereof, and by the wonderful works that God hath miraculously wrought in heaven above and in the earth beneath in six days and seven nights, I do swear that I will, without respect of favor or friendship, love or gain, consanguinity or affinity, envy or malice, execute the laws of this Isle justly between our sovereign lord the king and his subjects within this Isle, betwixt party and party, as indifferently as the herring's backbone doth lie in the midst of the fish."
Talent in the Rough.
Firth, the English painter, tells this story of a fellow artist: "Huskison was an extraordinarily clever fellow, who died quite young. He used to paint imaginative pictures, fairies and that sort of thing. He was entirely uneducated. At a big dinner party at Cheltenham I heard Lord Northwick ask him all down the length of the table who bought his last picture. Was it a dealer? 'No, my lord,' said Huskison, 'it was a gent.'"
